WE ARE

QUEST PM Solutions offers project management solutions and advisory services and specialises in mineral explorations, mining and oil & gas industries across the African Continent.

Our client outcomes are maximised through our ability to focus on de-risking projects from the onset and providing quality on-time and in-full (OTIF) end-to-end project value in addition to the expert advisory perspectives that we bring to bear.

“No matter how good the team or how efficient the methodology, if we’re not solving the right problem, the project fails.” – Woody Williams

Our Mission

A vibrant and mature project management services industry for the African extractive industry.

Our Vision

To Inspire the delivery of quality, professional, evidence-based project outcomes for the African extractive industry

WHAT MAKE US TICK

Client Focused

We put our client's interest first by delivering quality PM serviced on-point, in-full & on-time

Best-Value

We combine low-cost strategies, unique capabilities and quality services, to deliver for our client best value

innovation

We thrive by harnessing current and emerging technology and innovation to deliver value for our client.

WHAT WE DO BEST

END-TO-END PROJECT DELIVERY

We provide clients end-to-end project delivery, support and management as a service- from value case to closure.

PROJECT TECHNICAL RESOURCING

We provide clients with specialist resources with the right skill and knowledge for the job at hand.

FIELD SERVICE MANAGEMENT

We deliver effective onsite service by tracking workflow, managing visibility into operations.

TRAINING AND FIELD SUPPORT

We provide clients with specialist resources with the right skill and knowledge for the job at hand.

SERVICES

"It must be considered that there is nothing more difficult to carry out nor more doubtful of success nor more dangerous to handle than to initiate a new order of things." ~ Machiavelli

OUR SOLUTIONS

We offer end-to-end Project delivery, support and training as a service for

” Trying to manage a project without project management is like trying to play a football game without a game plan.” — Karen Tate

MEET THE TEAM

Our team of experts are ready to deliver on your requirements

HORACE
Director

Richard has been involved with mining/mineral exploration projects over the past 15 years and has served in various capacities (Technical and Management roles) within Newmont Gold, Barrick Gold, Declan Resources, SEMS Exploration Services and Universal Dawnus. He is technically competent with good leadership and management abilities.

RICHARD
Director

Horace is a Business Management expert with over 15 years' progressive leadership experience in various phases of project development and operations management across the mining and oil & gas industries in West Africa. Skilled in the full spectrum of planning – from strategy to execution, mine design, cost engineering, change management and risk management.

ISAAC
Director

Isaac is a seasoned chartered professional with over 17 years' open pit and underground experience in large open operations with strong international mining background in technical mining services within gold, coal, quarrying, hard-rock operation across Africa, Australia and Europe.

SAMUEL
Principal Advisor

Samuel is a professional with proven ability to contribute to success of mining companies, and academic organizations through outstanding educational achievement and engineering expertise. Strategic and analytic engineer and researcher with talent for managing large, complex geotechnical, mining, and environmental projects.

WHY OUEST?

- Our access to experts from all the world
- Rapid mobilisation on project site
- Highly scalable team
- Latest technologies on ground
- Highly-skilled industry specialists
- Solid and proven regional experience
- We understand the local environment
