

# MINING FOR NON-MINERS

## OVERVIEW

*This 2-day course has been designed specifically for non-miners (technologists, IT Professionals, Accountants, Marketers, Human Resource Specialists, Legal Professionals, Investors, Bankers, Management Consultants, etc) who are working in or associated with the mining industry. This is a course for everyone who wants to understand and gain greater knowledge about the key fundamentals of the mine cycle and the mining industry - getting your head around the technical "Mumbo-Jambo".*

## PROGRAM

- Gain knowledge of the global mining industry
- Key mining concepts and decision-making processes
- Methods of extracting and processing material
- Commonly used mining terminology
- Mine-Mill-Mine: Overview of the Mining Workflow
- Geology, Exploration, Modelling & Reporting
- Mine Planning & Asset Management
- Surface Mining
- Underground Mining
- Processing & Extractive Metallurgy
- Logistics & Marketing
- Sustainability

### Course Outcomes

*Learn how a mining company takes a project through to a mining reserve; how to interpret company reports on mineral resources and exploration results; the mining cycle for underground and open pit mines; the basics of capital and operating costs and how they are incorporated into project valuation; pre-feasibility and feasibility studies; mine planning to optimise production; mine closure; and of course the key terminology of the mining industry*

**\$1,499**
